Preface

The 23rd Annual Dialysis Conference took place in Seattle, Washington, March 2 – 4, 2003, under the chairmanship of Karl D. Nolph. We express our warmest thanks to the chair and his team of professionals, who helped organize another excellent meeting attended by approximately 2,500 participants. The Continuing Medical Education (CME) team deserves all the kudos for their smooth organizational skills—they made everything happen.

The present volume includes a collection of interesting peritoneal dialysis–related manuscripts from the 23rd Annual Dialysis Conference. The manuscripts were solicited from the invited speakers and from contributors selected to give slide and poster presentations during the conference. The manuscripts were peer-reviewed, and those reflecting innovative concepts and current interests in peritoneal dialysis were chosen for publication. Advances in Peritoneal Dialysis is abstracted in the Index Medicus, the Index to Scientific and Technical Proceedings, and the ISI/ISTP +B online database.

Preparations for the 24th Annual Dialysis Conference, which is to be held in San Antonio, Texas, February 9 – 11, 2004, are now underway. As always, early registrants receive special discounts. For information, visit our Web site at www.muhealth.org/~dialysis, or contact the CME office at the University of Missouri–Columbia at (573) 882-4105.

The Editors
Each year the Annual Conference on Peritoneal Dialysis recognizes those individuals who have made significant contributions to the field of peritoneal dialysis. Each honoree receives a plaque commemorating his or her pioneering work over the years.

Every year the first author of the outstanding abstract submitted to the Annual Conference on Peritoneal Dialysis and the first author of the outstanding abstract in the Nursing category are awarded a plaque and cash award on behalf of the International Society for Peritoneal Dialysis. The awards are presented to the recipient during the conference.

Since 1990, the first authors of the two best submitted abstracts in the field of pediatrics also receive a plaque and cash award; these winners are also listed below. Baxter Healthcare Corporation sponsors these two pediatric awards.

Here is a list of award winners and their affiliated institutions.
